

Snap-Link Mobile for Android puts control of your home on your Android-compatible mobile devices. Simply tap the HAI logo and you have instant access to your home control page.

FEATURES

Set lighting levels or audio from 0-100% with a sliding scale—or use quick scene buttons.

View real time video of surveillance cameras. See your front door, nursery, pool, boat dock, etc.*

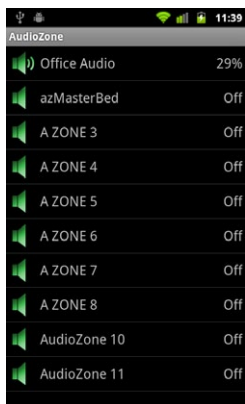

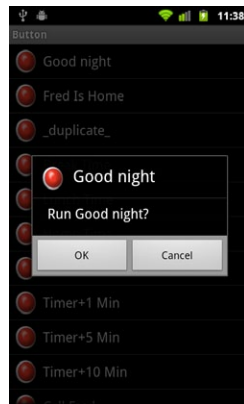

Conserve energy by adjusting heating and cooling and view humidity and outdoor temperatures.

Arm or disarm the alarm, view a security log to monitor activity of housekeepers, nannies, etc.

Control your whole home audio system. Select music sources and adjust volume levels in individual rooms or the entire house.

Access multiple accounts.

**Requires appropriate cellular provider plan and cameras.*

Simply purchase Snap-Link Mobile for Android from the Android Market (www.android.com/market) and get in control of your home systems. With this application, you will command your home via secure encrypted communication over Wi-Fi or G3 cellular data networks.

Snap-Link Mobile for Android is available in Android supported regions for multi-lingual support. Users receive free automatic software updates. No third parties other than cellular service are required for operation. There is no set-up for Snap-Link Mobile for Android other than the initial purchase from the Android Market.

Snap-Link Mobile for Android requires an HAI Omni IIe, OmniPro II, Lumina, or Lumina Pro home control system to be installed in the home. No cell service plan is required thanks to Wi-Fi connectivity.
